Product Data Sheet

1.0 Name of the product	Leukoplast® elastic finger dressing Leukoplast® elastic dressing length Leukoplast® elastic strips
2.0 Product description	
2.1 Description	Leukoplast® elastic finger dressing consists of a flesh coloured, crosswise elastic Viscose - Polyamide woven which is porous coated on one side with with a transparent latex free, synthetic rubber-based adhesive. A white absorbent non-woven wound pad is applied centrally on the coated side of the wound dressings. The adhesive mass of Leukoplast® elastic finger dressing is fully covered with two white, one side siliconized release papers. The lower release paper has got a fold which is overlapped by the upper release paper. Leukoplast® elastic finger dressing is precut to strips, pouched and packed into folding boxes. The adhesive mass of Leukoplast® elastic finger dressing 19mm x 120mm is fully covered with a release paper, which is protruding the product on both sides, and which is split in the middle. Leukoplast® elastic finger dressing packed into folding boxes. Leukoplast® elastic strips consists of a flesh coloured, crosswise elastic Viscose - Polyamide woven which is porous coated on one side with a transparent latex free, synthetic rubber-based adhesive. A white absorbent non-woven wound pad is applied centrally on the coated side of the wound dressings. The adhesive mass of Leukoplast® elastic strips is fully covered with two white, one side siliconized release papers. The lower release paper has got a fold which is overlapped by the upper release paper. Leukoplast® elastic strips is precut to strips, pouched and packed into folding boxes. Leukoplast® elastic dressing length consists of a flesh coloured, crosswise elastic Viscose - Polyamide woven which is porous coated on one side with with a transparent latex free, synthetic rubber-based adhesive. A white absorbent non-woven wound pad is applied centrally on the coated side of the wound dressings. The adhesive mass of Leukoplast® elastic dressing length is fully covered with a release paper, which is protruding the product on both sides, and which is split in the middle. Leukoplast® elastic dressing length is wound to rolls (covering outside) and packed into folding boxes.
2.2 Intended purpose	Leukoplast® elastic, Leukoplast® elastic dressing length and Leukoplast® elastic strips are intended for short time use as cover for minor wounds like cuts, lacerations, abrasions or as cover of puncture sites after blood withdrawal or vaccination. Especially for joints and awkward body contours e.g. elbows, knees, fingers or wrists.
2.3 Instructions for use	No: Instructions for use not necessary for class I/Is/IIa products.
2.4 Warnings and precautions for use	No warnings and precautions for this device.
2.5 Contraindications	No contraindications are known for this device.

2.6 Transport Precautions	Dry, clean and without exposure to direct sunlight
2.7 Duration of application Period of use	First aid dressings can be used from one day to several days depending on the status of the wound and the skin condition.

2.8 Composition

Designation (incl. no. in drawing)	Description	% of final product
Backing (1)	70 % viscose / 30 % polyamide	30
Adhesive (2)	Synthetic rubber-based, latex free	31
Wound Pad (3)	85% viscose 15% polypropylene / polyethylene	20
Release liner (4)	siliconized paper	19

2.11 Storage conditions	Dry, clean and without exposure to direct sunlight
2.12 Shelf life/ Storage time	5 years
2.13 Sterilization	N.a.

3.0 Chemical substances of special concern to Essity

Essity has defined chemical substances that are of special concern and are subject to specific restrictions. A reference to the list of substances can be found in Annex A2 via the following link www.essity.com/gss

Deviations are covered in 3.1 Components.

3.1 Components

Raw materials used in product formulation

Substance	Included in formulation
natural rubber Latex	No
Lanolin and its derivatives	Yes
Colophony	No
Colophony derivatives	No
Bisphenol A (BPA)	No
Polyvinylchloride (PVC)	No
Methylmethacrylate	No
Butylacrylate	No
Microplastics (<5 mm)	No
Nanoparticles	No
Fragrance/parfum	No
Antibiotics	No
Triclosan	No
Chlorhexidine	No
Polyhexanide	No

Raw materials used in the packaging

Substance	Included in formulation
Polyvinylchloride (PVC)	No
Natural rubber latex	No
Recycled material	No

Raw materials used in the product formulation and in the packaging may contain small amounts of the substances listed above and not marked as included in formulation as well as amounts of other substances not listed above. As trace level analysis is not performed for each batch BSN medical GmbH cannot provide proof of absence.
