Maintenance set for behrotest® steam distillers

The set comes with all the necessary spare parts for the working area as well as for the interior of the behrotest® steam distillers.

The maintenance set included are exactly those

- screw caps,
- seals,
- tubes and
- valves

which are prone to wear out during everyday use in the laboratory.

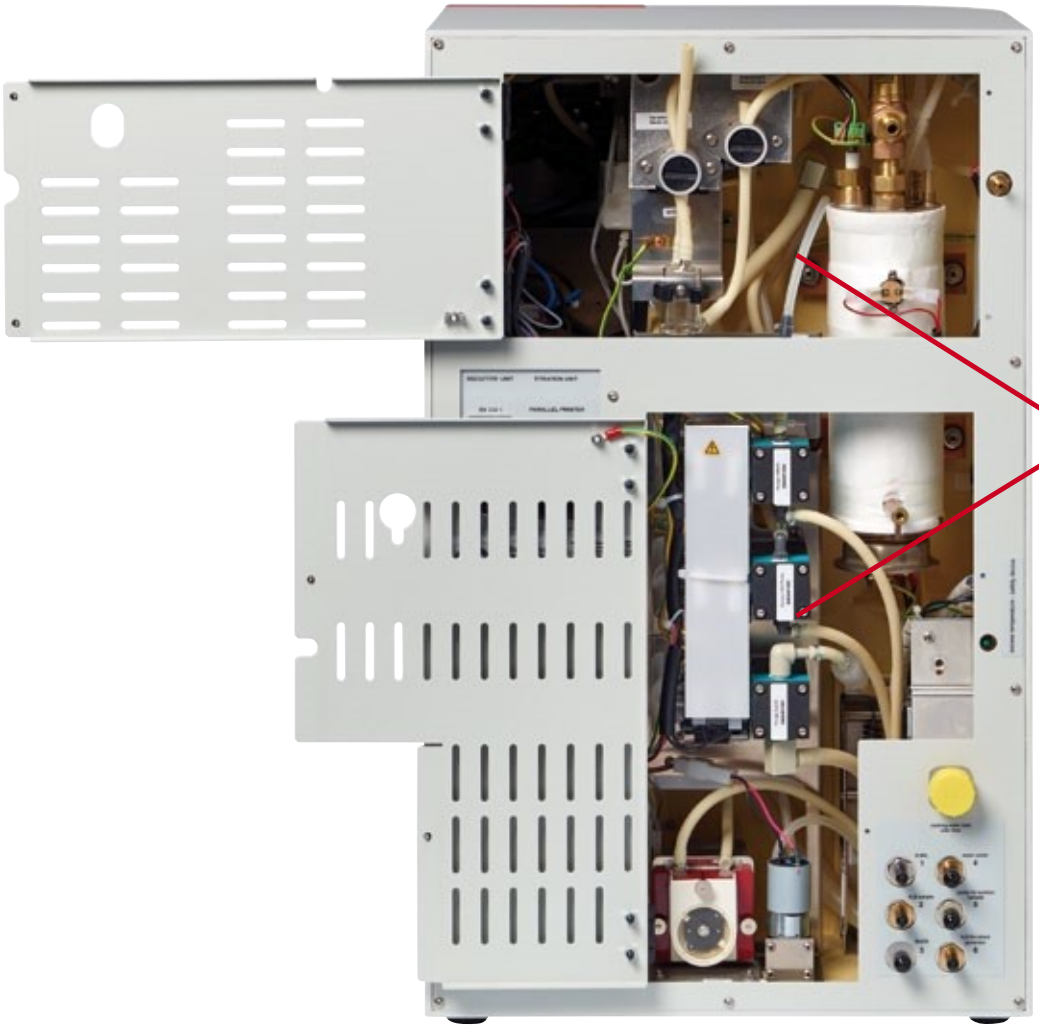

Type	Art. No.
behrotest® maintenance set	B00606938

User friendly design:

doors at the rear can be opened simply without tools and give access for routine maintenance work.

Maintenance friendly design

Important tubes, valves and pumps etc. for service and maintenance work are all freely accessible.
