Technical information

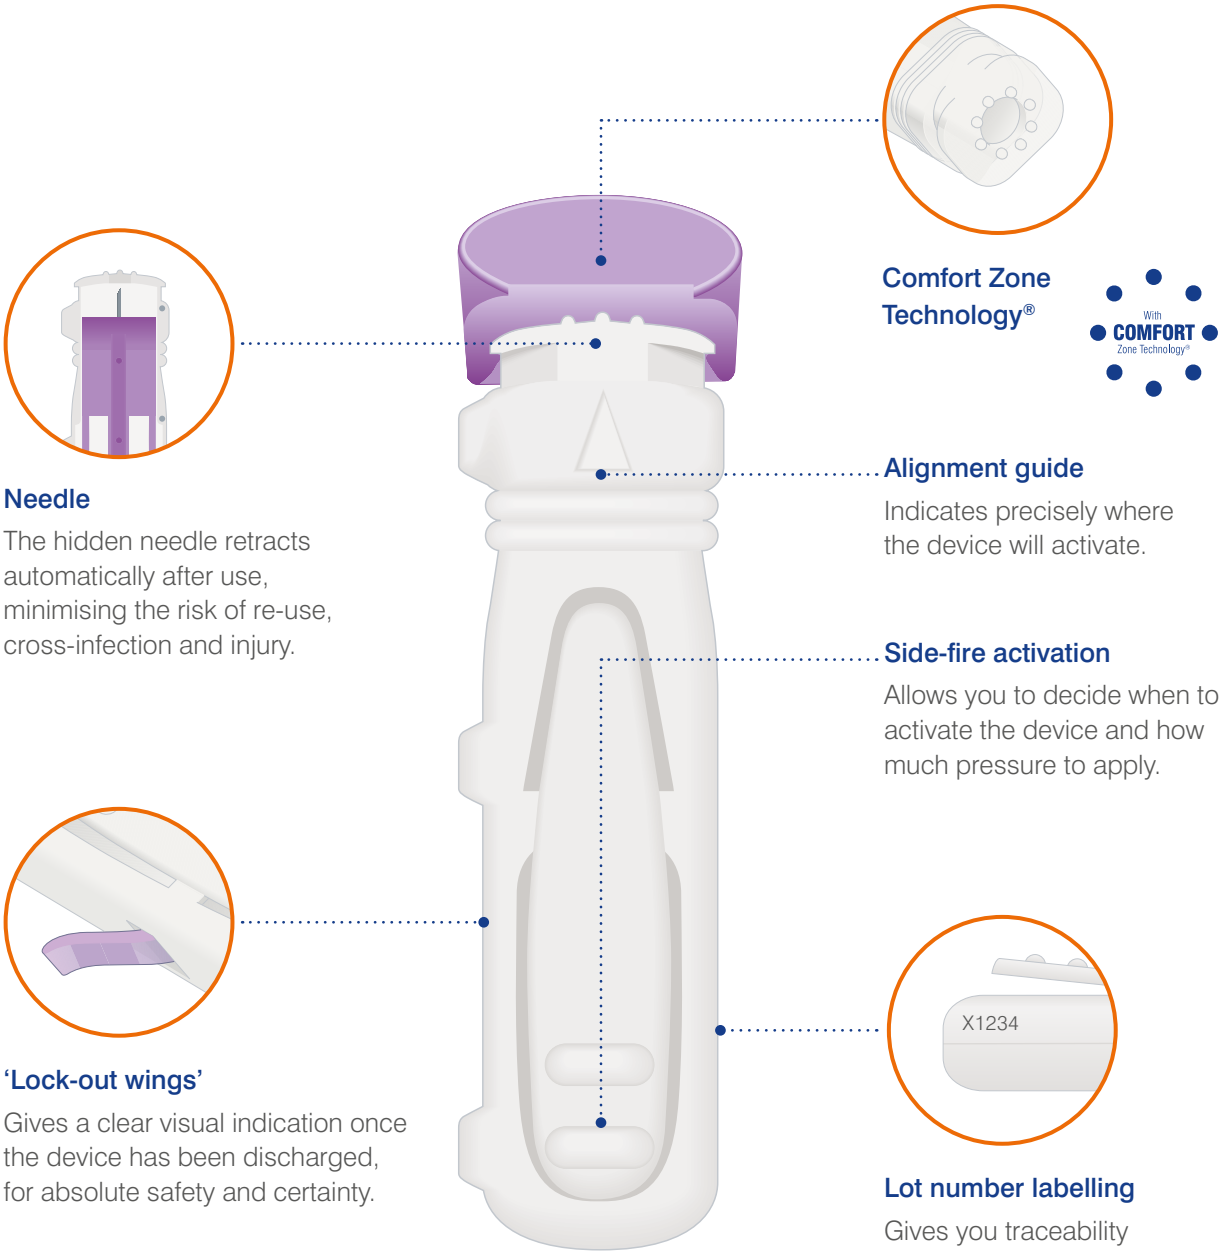

Unistik® 3

Owen Mumford

Designed to provide reassurance

Unistik® 3 puts the sampling experience firmly in your hands, with side-fire activation enabling you to decide exactly when to activate the device and how much pressure to apply. The alignment guide indicates precisely where the device will activate on the patient's finger.

Needle

The hidden needle retracts automatically after use, minimising the risk of re-use, cross-infection and injury.

'Lock-out wings'

Gives a clear visual indication once the device has been discharged, for absolute safety and certainty.

Comfort Zone Technology®

With COMFORT Zone Technology®

Alignment guide

Indicates precisely where the device will activate.

Side-fire activation

Allows you to decide when to activate the device and how much pressure to apply.

Lot number labelling

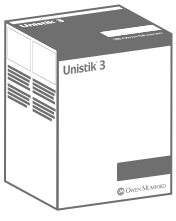

Gives you traceability and peace of mind.

Device specifications

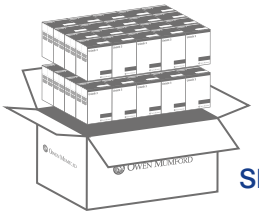

Device dimensions	Height	14.0mm
	Width	14.1mm
	Length	51.5mm
Weight	Unistik® 3 Gentle	2.85g
	Unistik® 3 Comfort	2.86g
	Unistik® 3 Normal	2.89g
	Unistik® 3 Extra	2.93g
	Unistik® 3 Neonatal & Laboratory	3.03g
Material	Housing	HIPS plastic
	Lancet	Stainless steel
