Product Data Sheet

1.0 Name of the products	**Leukoplast® wound closure strip** (professional) **Leukoplast® Leukosan® Strip** (pharmacy)
2.0 Product description	Not applicable.
2.1 Description	Leukoplast® wound closure strip and Leukoplast® Leukosan® Strip consist of a polyamide knitted fabric as backing material coated on one side with an UV-curing acrylic adhesive. The strips are cut with round edges and placed on a transparent, siliconised polyester liner as carrier film. The PET-liner is perforated at both ends to simplify the application of the strips. They are sealed into printed pouches, packed into folding boxes and sterilized with ethylene oxide.
2.2 Intended purpose	Sterile wound closure strips for closing of topical lacerations and incisions
2.3 Instructions for use	Instructions for use not necessary for class 1s product.
2.4 Warnings and precautions for use	The following symbols are used on every packaging level: „Do not use if pouch is damaged” “Do not re-use” “Do not re-sterilize” 
2.5 Contraindications	There is no known contraindication for the device under evaluation
2.6 Transport Precautions	Not applicable.
2.7 Duration of application / Period of use	One day to several days depending on the status of the wound and on the skin condition.

2.9 Composition

Picture of the product in white and natural:

Designation (incl. no. in drawing)	Description	% of final product
1-Backing material	White or beige knitted fabric made of polyamide	22
2-Adhesive mass	UV-curing acrylic adhesive	14
3-Release film	Transparent, perforated, siliconised polyester film	64

2.11 Sizing Chart	Not applicable.
2.12 Storage conditions	Store under cool and dry conditions. To be protected against sun radiation and humidity.

	
2.13 Shelf life/Storage time	5 years, printed on the packaging.
2.14 Sterilization	EO sterilized according to ISO 11135 / DIN EN ISO 11135:2020-04
2.15 Reimbursement Information	For country specific information please reach out to your local Essity contact.
2.16 Key quality parameters	

Characteristic	Method	Target
Adhesion to steel of finished product	Essity internal	1,00 – 3,70 N/cm
Quantity of adhesive mass of coating	Essity internal	45 – 55 g/m²
Color	Visual	White or

3.0 Chemical substances of special concern to Essity

Essity has defined chemical substances that are of special concern and are subject to specific restrictions. A reference to the list of substances can be found in Annex A2 via the following link www.essity.com/gss

Deviations are covered in 3.1 Components.

3.1 Components

Raw materials used in product formulation

Substance	Included in formulation
natural rubber Latex	no
Lanolin and its derivatives	no
Colophony	no
Colophony derivatives	no
Bisphenol A (BPA)	no
Polyvinylchloride (PVC)	no
Methylmethacrylate	no
Butylacrylate	no
Microplastics (<5 mm)	no
Nanoparticles	no
Fragrance/parfum	no
Antibiotics	no
Triclosan	no
Chlorhexidine	no
Polyhexanide	no

	Raw materials used in the packaging **Substance** / **Included in formulation** Polyvinylchloride (PVC) / no Natural rubber latex / no Recycled material / Yes, partly in transport box. Raw materials used in the product formulation and in the packaging may contain small amounts of the substances listed above and not marked as included in formulation as well as amounts of other substances not listed above. As trace level analysis is not performed for each batch *BSN medical GmbH* cannot provide proof of absence.
3.2 Certificates	Not applicable.
