Product Data Sheet

1.0 Name of the product	**Uniflex® Ideal by Actimove®**
2.0 Product description	
2.1 Description	**Uniflex® Ideal by Actimove®** is a woven, cotton based, non-adhesive, elastic (lengthwise) bandage with crocheted selvedges and a smooth surface, intended for light compression and support, fixation and dressing retention to an external part of the body. It is non-sterile and provided as a roll designed to be cut in pieces of individual length for single application use.
2.2 Intended purpose	Elasticated non-adhesive bandages like Uniflex® Ideal by Actimove are intended to provide light support or compression as well as fixation and dressing retention to an external part of the body. Application fields include: • Light support in the treatment of minor soft tissue and joint injuries (e.g. sprains, strains) • Light compression (e.g. in edema management to reduce effusion and swelling) • Secure dressings (e.g. when treating wounds) or fixation (e.g. of casts or splints) It is to be applied on intact skin only. Wounds have to be treated before by using an appropriate wound dressing. Intended Users are Health Care Professionals (HCPs) and lay persons (e.g. patients) in clinical and home environment. Use of device is not restricted to specific populations.
2.3 Instructions for use	No IFU is required for this kind of product due to the low risk to user. Product is well-known and self-explanatory. All necessary information for safe use is available on labelling.
2.4 Warnings and precautions for use	None
2.5 Contraindications	None known for this product.
2.6 Transport Precautions	Not applicable
2.7 Duration of application / Period of use	Overall treatment period depends on root disease and duration of healing. Bandage can remain on the intact skin and on the appropriate wound dressing until the next bandage or dressing change. The frequency of exchange depends on the nature of the medical condition and should be adapted to the current clinical situation, i.e. from hours to several weeks.
2.8 Information on reusable/washable products	Not washable.
2.9 Composition	70% Cotton 30% Polyamide

2.10 Product range

Size	Per folding box/ bag	Per shipper	Product code

3.0 Chemical substances of special concern to Essity

Essity has defined chemical substances that are of special concern and are subject to specific restrictions. A reference to the list of substances can be found in Annex A2 via the following link www.essity.com/gss

Deviations are covered in 3.1 Components.

3.1 Components

Raw materials used in product formulation:

Substance	Included in formulation [yes/no]
Natural rubber Latex	No
Lanolin and its derivatives	Not intentionally added
Colophony and its derivatives	Not intentionally added
Bisphenol A (BPA)	No
Polyvinylchloride (PVC)	No
Methyl methacrylate	No
Butyl acrylate	No
Microplastics (<5 mm)	No
Nanoparticles	No
Fragrance/parfum	No
Antibiotics	No
Triclosan	No
Chlorhexidine	No

Polyhexanide	No
Softeners (Phthalates, DEHP)	No
Plasticizer	Not intentionally added
Fluorine compounds (incl. Per- and polyfluoroalkyl substances (PFAS))	Not intentionally added
Paraffin or Paraffin traces	Not intentionally added

Type of cotton used in the product: conventional cotton

Raw materials used in the packaging:

Substance	Included in formulation
Polyvinylchloride (PVC)	No
Natural rubber latex	No
Recycled material	Yes in Shippercase

Raw materials used in the product formulation and in the packaging may contain small amounts of the substances listed above and not marked as included in formulation as well as amounts of other substances not listed above. As trace level analysis is not performed for each batch BSN medical GmbH cannot provide proof of absence.
